

WAJIR Seed Distribution November 2011

Thanks to generous well wishers, seeds were distributed among the new farmers of Wajir. After a sensitisation session, the seeds were distributed to 100 farmers who had earlier benefited from CHEPs wells project. The district agriculture officer will provide ongoing training to these new farmers together with monitoring by CHEPs volunteers on the ground.

The results:

Sorghum ready for harvest

Watermelons for

consumption and sale in the market
